swissmooh

UHT Milk, 1 Litre Bottle

We collect our fresh and pure Swiss milk on a two-day cycle and supply it to the most famous dairies in Switzerland. After standardisation, homogenisation and sterilization, the aseptically filling into a light protecting plastic bottle finishes the process.

In order to offer our customer a maximum of taste, swissmooh uses direct UHT treatment, known to protect the milk taste far better than the more often used indirect UHT treatment. More so, keeping the temperature during transportation and storage always between 2–5 °C offers our customer a UHT milk that tastes like fresh milk.

swissmooh's mission is to launch fascinating specialties, which are produced entirely by swissmooh-associated, leading and high performing partners in Switzerland.

Longstanding expertise and the full commitment of highly skilled and passionate partners contribute to outstanding and trustworthy quality.

Made with 100 % swissmooh premium milk from happy cows only.

Properties

Product name	Cow's milk, UHT
Origin	Switzerland
Ingredients	100 % cow's milk
Appearance	homogenous white liquid
Taste	pure milk flavour

Nutritional values (per 100 g)

Energy	65 kcal, 273 kJ
Fat	3.6 g
Protein	3.5 g
Carbohydrate	4.9 g
Sodium	40 mg
Calcium	120 mg

Packaging / Logistic

Shelf life	270 d
Storage temperature	2–5 °C
Sales unit	1 litre milk in a PE-HD bottle (8 x 8 x 24.73 cm) with a screw cap.
Palletisation	12 bottles per carton (33.4 x 25.3 x 26.3 cm), 10 carton per layer, 7 layer per pallet. Results in 840 sales units per pallet.
Net weight per pallet	865 kg
Customs Tariff Number	0401.2090
