swissmooh

UHT Milk, 250 ml Tetra Pak

We collect our fresh and pure Swiss milk on a two-day cycle and supply it to one of the most famous dairies in Switzerland. After standardisation, homogenisation and sterilization, the aseptically filling into a special multilayer and light protecting carton box finishes the process.

In order to offer our customer a maximum of taste, swissmooh uses direct UHT treatment, known to protect the milk taste far better than the more often used indirect UHT treatment. More so, keeping the temperature during transportation and storage always between 2–5 °C, offers our customer a UHT milk that tastes like fresh milk.

swissmooh's mission is to launch fascinating specialties, which are produced entirely by swissmooh-associated, leading and high performing partners in Switzerland.

Longstanding expertise and the full commitment of highly skilled and passionate partners contribute to outstanding and trustworthy quality.

Made with 100 % swissmooh premium milk from happy cows only.

Properties

Product name	Cow's milk, UHT
Origin	Switzerland
Ingredients	100 % cow's milk
Appearance	homogenous white liquid
Taste	pure milk flavour

Nutritional values (per 100 g)

Energy	65 kcal, 273 kJ
Fat	3.6 g
Protein	3.3 g
Carbohydrate	4.9 g
Sodium	40 mg
Calcium	120 mg

Packaging / Logistic

Shelf life	270 d
Storage temperature	2–5 °C
Sales unit	250 ml Tetra Pak (62 x 41 x 107 mm) with attached straw
Palletisation	12 Tetra Paks per open carton (262 x 131 x 92 mm), 27 carton per layer, 5 layer per pallet. Results in 1620 sales units per pallet.
Net weight per pallet	417 kg
Customs Tariff Number	0401.2090
